

Marion Public Schools

September 20, 2010

Dear Parents and Community Members:

We are pleased to present the Annual Education Report (AER) which provides key information on the 2009-2010 educational progress for the Marion School District and our schools. The AER addresses the complex reporting information required by federal and some requirements of state laws; however, our staff is available to help you understand this information. Please contact Diana Salisbury at the Superintendent's Office for help if you need assistance.

The AER is available for you to review electronically by visiting the following web site <http://www.marionpublic.org/> or you may review a copy in the principal's office at your child's school.

The report contains the following information:

Student Assessment Data – Michigan Educational Assessment Program (MEAP), Michigan Merit Exam (MME), and Michigan's Alternative Assessment Program (MI-Access)

- Presents achievement data for English Language Arts and Mathematics for grades 3 to 8 (MEAP), for grade 11 (MME) and science for grades 5 and 8 compared to targets for all students as well as subgroups of students
- Provides achievement data for English Language Arts, Mathematics and Science for students with significant disabilities (MI-Access) compared to targets for all students with disabilities as well as subgroups of students
- Helps readers understand achievement progress within schools and compare these to district and state achievement

Adequate Yearly Progress (AYP) – Detail Data and Status

Provides information from assessments, graduation and attendance rates and AYP status in relation to four criteria:

- The district must test 95% of students in total and in each required subgroup

- The district must attain achievement goals in English Language Arts and Mathematics or reduce the percentage of students in the non-proficient category of achievement significantly ("safe harbor") annually
- The district must attain achievement goals for each subgroup that has at least 30 students in the group
- The district must meet or exceed the other academic indicators set by the state: graduation rate for high schools and attendance rate for elementary and middle schools

Teacher Quality Data

- Identifies teacher qualifications at district and school levels
- Reports percentage of core academic classes taught by teachers not considered highly qualified to teach such classes

NAEP Data (National Assessment of Educational Progress)

- Provides state results of the national assessment in mathematics and reading every other year in grades 4 and 8
- Cannot be compared with MEAP results for grades 4 and 8 because there are no national standards.

For 2009-2010, Marion Public Schools made Adequate Yearly Progress (AYP) in English Language Arts and Mathematics. All schools in the district also made AYP. Despite this Marion High School was recently identified as a persistently low performing school and we are in the process of putting together a school improvement plan to address the issue.

As I have stated before, I am confident that we will not only be removed from the list of low achieving schools, but with your support and help, we will exceed expectations. Thank you for your continued support.

Sincerely,

Greg Mikulich
Superintendent
Marion Public Schools
